

Model TAL-600R Rewinder

TAKE-A-LABEL.....

Providing Economical Solutions in Label Rewinding

The TAKE-A-LABEL Model TAL-600R will work with almost any label printer. Automatically winding up label stock as it is provided. The unit starts and stops automatically using either a speed adjusting dancer arm or an adjustable torque switch.

The TAL-600R can also be used as a stand alone rewind system for rewinding pre-printed labels. The TAL-600R is a complete rewind stand, no need to purchase additional parts to get the optimum performance. This unit is shipped ready to work. Using all steel frame construction and a high torque DC motor with replaceable brushes, the simple to use TAL-600R will provide years of trouble free service.
